1 "Clean Sweep"

Clean Sweep Spray works like an eraser to clean energetic 'static' from the environment and to counteract negative influences coming from your physical environment and other people. It compensates for the effects of energetic distortion caused by modulated EMF signals. It helps relieve emotional tension and create a sense of wellbeing and security.

Product	Size	Price
Clean Sweep	2 oz.	€ 12.00
Clean Sweep	8 oz.	€ 18.00
Clean Sweep	16 oz.	€ 25.00
Clean Sweep Concentrate Refill	20 ml	€ 35.00

Clean Sweep Spray cleans any kind of negative energy. It works like an eraser to clean energetic 'static' from the environment and to counteract negative influences coming from your physical environment and other people. It compensates for the effects of energetic distortion caused by modulated EMF signals. It helps relieve emotional tension and create a sense of wellbeing and security. Practitioners who use the spray report the energy released by it has an almost immediate effect on many energetic parameters of the human nervous system. It can help to calm and relax aggressive people, and support the soothing of negative thoughts and tendencies. Overall, the body's entire system is supported to be more relaxed and have more energy for dealing with the rest of life's challenges instead of trying to counteract the impact of negative energies in the environment.

As it energetically cleans the space, Clean Sweep also energetically protects it from the further accumulation of damaging energy for up to two days. However, in areas where negative energy is continuously introduced, it makes sense to use the spray more often. Some people like to use it 2-3 times a day.

Clean Sweep is all-natural, water-based, contains no chemicals or fragrances and is completely safe for the environment. The energized structured water solution comes in a convenient spray bottle.
